Instructions

The Ontario Electricity Rebate (OER) is a provincially funded rebate that applies as a credit on qualifying electricity bills. The following types of electricity accounts are eligible:

- Low-volume accounts (meaning the account has a demand for electricity of 50 kilowatts or less, or uses not more than 250,000 kilowatt-hours of electricity per year); this includes most single-family homes and many small businesses
- Multi-unit complexes that are predominantly residential, such as condominium and apartment buildings
- Common elements in multi-unit complexes that are predominantly residential (as of July 1, 2022)
- Retirement residences (as of July 1, 2022)
- Mobile home parks (as of July 1, 2022)
- Farming business
- Long-term care homes

In addition, some accounts that are not eligible but were receiving the former 8% Provincial Rebate (that was in place before the OER was introduced on November 1, 2019) receive the OER under a legacy exemption.

You should complete this form only if your account relates to:

- A multi-unit complex
- Any common elements of a multi-unit complex
- A retirement residence
- A mobile home park
- A farming business
- A long-term care home

If your account is a low-volume account, you do not need to submit this form — you are entitled to receive the OER automatically. If you are not sure whether you are already receiving the OER, please check your last bill.
